WELCOME TO Bailey & Wade

Your trusted machining partners, with a rich heritage spanning over 50 Years in the industry

From automotive to aerospace, medical to electronics, we have the expertise and resources to deliver outstanding results tailored to your specific needs.

We take pride in our **state of the art Coventry facility** that boasts the latest technology and machinery, enabling us to produce high-quality turned parts to exacting standards.

Our capabilities extend from 1mm to 80mm Diameter in a wide range of materials, including aluminium, stainless steel, and brass.

No matter the industry, our high precision turned parts are optimised for performance and reliability. With multiple finishes available and rigorous quality control measures in place, you can trust that our high precision turned parts will meet your requirements. Discover the difference that high precision turned parts can make for your business today.

QUALITY

We've implemented a meticulous quality control system that ensures every single part we produce meets the highest standards of accuracy and consistency.

Our quality assurance procedures include:

- Advanced inspection equipment
- Continuous improvement culture
- ISO 9001 Certification
- PPAP Level 3 Availability
- ISIRs and Certificate of Conformity
- Full Material Traceability
- IMDS

SUSTAINABILITY

Our solar panels are a shining example of our dedication to sustainability. Throughout summer, they generate over 50% of our electricity needs, and even in winter, they contribute a quarter of our power.

To further our sustainability journey, we're investing in an advanced separator system. This ensures that any rainwater mixed with factory oil is collected and separated before entering the water course, preventing local water pollution. Our commitment extends beyond our walls to the well-being of our community.

Materials Machined

- Brass Carbon and Alloy
- Steel Stainless – 303 and – 316
- Aluminium
- Phosphor Bronze
- Acetal and Nylon
- Peek and PTFE
- Titanium Alloys
- Nickel Alloys

OUR MACHINING CAPABILITIES

Bailey & Wade manufacture a wide range of precision turned/milled parts from 1mm up to 80mm diameter.

Our Plant list comprises of:

- 12 Star Sliding Head Machines with a capacity from 1mm to 44mm.
- 2 multi axis fixed head machines with a capacity of up to 80mm
- 40 cam autos from 1/10" to 2" diameter
- 1 hockh degreaser

Services Offered

- Custom Engineering and Design Services
- Prototyping
- Kanban & Stock Management Services
- Supply of standard fasteners
- Technical Support and Maintenance

Sectors Served

- Defence
- Automotive
- Agricultural
- Medical
- Civil Engineering
- Pharma
- Security
- Telecommunications
- Marine
- Gas and Oil
- Food
- Electronics
- Brewing
- Metrology
- Power Generation
- Pumps and Valves
